

I support the New Jersey Do Not Call law and do not want the Federal government to overturn it. Telemarketers are relentless in their efforts to get to you, do it at mealtimes which is family quality time, and just don't seem to take no for an answer and force you into being rude to them and just hanging up on them. New Jersey's law has basically put a stop to this unsolicited menace. Do 'not' overturn New Jersey's do not call law.
